v2.0

TINOHACKS II

SPONSORSHIP PROSPECTUS

WHAT IS TINOHACKS?

TinoHacks II is a 29 hour long hackathon run by Cupertino High School students, primarily directed towards high schoolers in the Bay Area. Last year, TinoHacks took place at 42 US in Fremont, California. With the help of 25 sponsors, 43 mentors, and 7 judges, we hosted 200 participants, who created 37 projects in the span of 29 hours. This year, we hope to expand our event to a wider audience and continue to inspire high schoolers to make their innovative ideas a reality. We are excited to bring TinoHacks II back to our community this year on April 7-8, 2018. Some of Silicon Valley's most talented and ingenious students will gather and put their heads together to create innovative solutions to challenges that exist in our world today. TinoHacks II will provide students with a brilliant environment to develop their entrepreneurial and coding expertise and to push their own limits.

WHY SPONSOR TINOHACKS II?

TinoHacks II is organized completely by a team of high schoolers, all of which are dedicated to helping people find their passion in programming. If your company chooses to sponsor TinoHacks, you will be given the opportunity to positively impact many students, as well as share your ideas with the engineers, entrepreneurs, and programmers of tomorrow. Along with receiving a firstlook into the future of technology, you will also be given an option to provide any resources such as, but not limited to APIs, prizes, and mentors, all of which play a significant role in inspiring participants. Though TinoHacks may not be able to offer the same recruiting options as that of a college hackathon, our sponsors will still be given the precious opportunity to interact and form relationships of great value with the developers of the future.

WHERE WILL YOUR MONEY GO?

The money will go directly towards paying for food, swag, prizes, venue, and anything needed to make TinoHacks II the best experience it can be for both hackers, mentors, and sponsors. Funds will be dedicated solely to achieve this. TinoHacks II is supported by Hack+, a 501(c)(3) registered nonprofit organization and official fiscal sponsor of TinoHacks II. Please take note that all funds made to Hack+ on behalf of TinoHacks II are tax deductable.

OTHER WAYS TO SUPPORT TINOHACKS?

- Send mentors or tech evangelists to aid participants in their projects
- Sponsor a meal (there will be four meals served at the event) or a snack
- Provide software or hardware tools for hackers
- Send Final Round Judges
- If you have any questions or ideas for us, please email us at **hello@tinohacks.tech**.
